### Family Types Preset

#### 1. Type – PL07 03 5/0

The screenshot shows the 'Family Types' dialog box with the name 'PL07 03 5/0'. The main area contains a table with columns for Parameter, Value, and Formula. The table is organized into several sections: Materials and Finishes, Dimensions, Identity Data, Energy Analysis, and Other. The 'Other' section contains the most complex formulas, including conditional logic for TP values.
